

THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Wilhelm Fey

Serial No: 09/937,958 Art Unit: 2838

Filing Date: January 31, 2002

Title: SAFETY BARRIER FOR LIMITING CURRENT AND VOLTAGE

Examiner: JEFFREY L. STERRETT

MSA246SD

April 18, 2005

**SUPPLEMENTAL DECLARATION**

Wilhelm FEY, whose application for Letters Patent for a SAFETY BARRIER FOR LIMITING CURRENT AND VOLTAGE, Serial No. 09/937,958 was filed in the United States Patent and Trademark Office on January 31, 2002 declares that the subject matter of the Amendment dated January 21, 2003, Supplemental Amendment dated January 29, 2003, Amendment dated December 15, 2003, Amendment dated December 20, 2004, Amendment, dated January 12, 2004, Amendment, dated January 20, 2004, and Examiner's Amendment dated January 21, 2005 was part of his invention, was invented before he filed his original application, above identified, for such invention; that he does not believe that the same was ever known or used in the United States before his invention thereof, or patented or described in any printed publication in any country before his invention thereof, or more than one year before his application, or in public use or on sale in the United States more than one year before the date of his application, that said invention has not been patented or made the subject of an inventor's certificate issued in any foreign country before the date of his application on an application filed by him or his legal representatives

or assigns more than twelve months prior to his application in the United States and has not been abandoned.

The undersigned petitioner declares further that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
